Toronto, C. W.

Manufactured and sold by the Melodeon and its like instruments in all parts of the world; we are the pioneers and the only in the United States, and we commenced the manufacture of the Melodeon in the Fall of the year 1837, and since that time have perfected and sold

THIRTY THOUSAND!

of these instruments now sold in twenty in the United States and Canada, in Europe, Asia, Africa, South America, and the West Indies, and from all these parts we have the most direct and unobstructed of the highest demand in which they are held. At all Industrial Expositions, they have invariably been

AWARDED THE HIGHEST PREMIUM!

For superior exhibiting in competition with others. We make pleasure in forwarding by mail, (at our own expense) Circulars and Catalogues, in which every feature of these instruments is fully described and illustrated by elegant engravings.

As all Melodeons of our manufacture, either sold by us, or in any part of the United States or Canada, are guaranteed to be perfect in every respect, and should be so, we deem it necessary before the expiration of five years, to send a new one, we hold our idea very true and

not caused by accident or design.

C A U T I O N .

A duly sworn affidavit of some well known and reliable witnesses, attesting to the superior quality of the goods of the
WILSONS and Sewall Organ. A new exterior and
interior design, and carefully attended to; but the phre-
nology has been noted that it will find its way, now usual
in the United States and Canada, as a new
style can be made without infringing our patents, cool
own.

Agents for the sale of our Melodions can be found
in the following cities of the United States and Can-
ada:—

GEO. A. PRINCE & CO.,
Buffalo, N. Y.

GEO. A. PRINCE & CO.,
43 Lake Street, Chicago, Ill.

or only in January, by
J. I. DARLINGTON, Agent.

REMOVAL.

WILSON'S MUSIC STORE,

has removed to the store opposite Myers Block, two doors
west of the Post office, where there may be found a
large assortment of

Pianos, Melodions and American

ORGANS.

also all the latest and popular publications of the
GUTHRIE MUSIC

including a very large variety of Patriotic Songs. We
also have a large assortment of

Musical Merchandise and Instruction

Books.

SCHOLAR ON KNASE.

After having played on the *Clam* of Moore, Knab-
ber, it is impossible not to bear testimony to their
artistic skill which have acquired for them the enthu-
siastic recognition which they enjoy. The Ethical
Institution, on which I have played, are exceedingly
favorable to their aspirations. The laws are powerful
and harmonious, and the upper notes I find clear
and harmoniously mellow. (Myristicines) and sweet
notes to be enjoyed by those instruments.
The water-saturated, and to declare that they are signed
by me, and to be signed by me, manufactured in Europe or
in countries to which I have made no reference.
Signed,
D. D. Williams, Jacksonville, Fla.

NEW PERFUME
FOR THE HANDKERCHIEF.

PALON'S

PIANO FOR SALE.—A splendid upright piano for sale very low by W. C. Bayner. Room in Lippin's Block, 31 story. Janesville, Sept. 29, 1894. [ad21027](#)

FOR SALE OR RENT.—A small farm, 25 acres, in the city. For particulars inquire at the hardware store, formerly occupied by H. L. Smith. [ad21028](#)

DWELLING HOUSE FOR SALE.—Only one block from the Postoffice, on North Second street, in the Second Ward. Two good barns are present. Inquire of H. L. SMITH. [ad21029](#)

FOR SALE.—A good house, cottage, situated in the city, and a half acre of land. It is situated in the 21 Ward and about five minutes walk from the Post Office. Price \$1400, half cash, balance on time. Apply to J. H. BAKER. [ad21030](#)

BUILDING AND OTHER LOTS.—For sale at very low prices on liberal terms of credit. Inquire at the office of the undersigned, in the city of Janesville, situated in Rockport and on the corner of Adams street. Apply to H. S. CONNER. [ad21031](#)

WANTED.—Property in or near the city, for which I will trade 80 acres of good timbered land, with a sawmill, situated three miles from the County seat of Vernon Co., Wis. I will sell the same low for cash. Inquire of the undersigned. Office over the O. K. Bennett, Main St. S. S. JUDY. [ad21032](#)

FOR SALE.—Seventy acres of **WOOD LAND** situated in Johnson, will be offered in lots of ten acres each. Apply to J. J. PEARSE, at Janesville. [ad21033](#)

\$12 TO \$25 PER DAY.—Agents wanted to sell our new \$18 Empire Sewing Machine with late improvements. The best cheap good work in the world. We will give a commission by which the above agents can be made, or we will pay \$75 a month and expenses. For particulars address with stamp. [ad21034](#)

VALUABLE REAL ESTATE.—FOR SALE.—I now offer for sale at a great bargain a splendid farm, situated 12 miles west of Janesville, Wis., just outside the city limits. The farm contains 40 acres of choice land. The buildings are nearly new and in good condition; a good well of water, two large barns, fruit and ornamental trees, shrubs, &c. Terms made easy. I will exchange this property for desirable property in or near this city. For further particulars inquire of the subscriber at the new wool factory, or of M. P. Cogswell, Jr., Belmont. [ad21035](#)

FOR SALE CHEAP.—I offer for sale my home, containing a good house, bath and kitchen, and a large lot of land. The property is situated in the town of Harmony, one half mile from the city limits. The buildings are nearly new and in good condition. The land is well watered and suitable for farming. Terms made easy. For further particulars inquire of the subscriber on the premises. [ad21036](#)

FOR SALE.—The following described property in the city of Janesville: Lots 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100. [ad21037](#)

WOOD CHOPPERS WANTED.—Wanted by MEYER & BRO., several men to chop wood, for which the following prices will be paid: 10 cents per cord in the city, and 8 cents per cord in the country. Persons will not be required to pile it, it will be drawn away as fast as cut down. [ad21038](#)

FOR SALE.—23 wood lots situated near Rockport, Rock Co., also 23 tracts of land, each suitable for a farm, having wood and water convenient. These lands are known as the Barker tract. Terms, wood lots cash; farming land one-fourth cash and balance on time. Apply to J. J. PEARSE, Janesville. [ad21039](#)

NOTICE.—Those indebted to us by note or book account are requested to call and pay immediately. We have disposed of our stock and must close our accounts at once. [ad21040](#)

TEAS.—Some very choice Green and Black Teas for sale, low and gold. [ad21041](#)

OLD WINES AND LIQUORS.—For medicinal purposes and for sale in small quantities. [ad21042](#)

DISSOLUTION.—The co-partnership of J. J. PEARSE and J. J. PEARSE is hereby dissolved by mutual consent. The books and accounts will be settled by J. J. PEARSE, who will pay all the debts of the partnership. [ad21043](#)

GENERAL GROCERY BUSINESS.—I would respectfully request all the old patrons of Damm & Bro. to give them a call. [ad21044](#)

AT THE OLD STAND.—and to all new customers they would say that they are confident. [ad21045](#)

GIVING GOOD SATISFACTION.—by selling them good goods as. [ad21046](#)

Cheap as the Market will Afford.—OBER DANZ, J. T. FISHER. [ad21047](#)

W. W. DEXTER & CO.—Would respectfully announce to the citizens of Janesville and vicinity that they have a good and well selected stock of. [ad21048](#)

CLOCKS, WATCHES, JEWELRY.—SILVER AND PLATED WARE, Yankee Notions, GOLD PENS, TOYS, &c., which they are prepared to sell as low as any establishment in the west. Mr. Dexter is prepared to do all kinds of clock and watch repairing. [ad21049](#)

THE READING TO-NIGHT.

Do not forget the reading to-night at Hope Chapel.

Those who attend will enjoy a rich treat.

HARPER'S MAGAZINE.

James Sutherland has just laid upon our table this valuable monthly for February, 1883.

QUITE A FALL.

It will be seen by reference to our market reports that flour has met with a fall.

Mr. O. B. Ford is selling at \$3.75 per hundred, and we presume other millers are doing the same.

SUNDAY EVENING LECTURE.

The fourth lecture of this course will be given to-morrow evening in Hope Chapel, at 7 o'clock.

Subject.—JOHN CALVIN.

Those who have listened to the other lectures of this course, need not be invited to attend this one.

THE WATER WITCH PARTY.

At the Hyatt House last evening was a good thing.

The company was one of the largest the Water Witch ever had on a similar occasion.

The hall was tastefully decorated, the music was good, the supper excellent, and "all went merry as a marriage bell."

THE UNITED STATES SERVICE MAGAZINE.

In these exciting war times when every person wishes to keep thoroughly and reliably posted in relation to military matters, a first class monthly magazine devoted entirely to such subjects, is a work of great value.

Such a monthly is the United States Service Magazine edited by Prof. Henry Coppee of the University of Pennsylvania.

Miss Hume, who comes here well recommended by Hon. S. D. Hastings, State Treasurer, is agent for the work and will canvass the city for subscribers next week.

It is the standard work of the kind in the country, and, in addition to being very ably and judiciously edited, numbers among its contributors some of the highest officers in the Army and Navy.

We trust it will have a good list of subscribers in this city.

HEUSTON DISCHARGED.

The trial of Heuston, the colored man who shot Haggerty at Shupier, was brought to a close this forenoon, and the prisoner discharged.

The case has excited much attention, and the crowd of spectators present at the trial has been unusually large from first to last.

The examination has been conducted with ability and fairness on both sides, and the opinion that it was a case of justifiable homicide is entertained by nine-tenths of the persons present at the trial.

It is proper to state, however, that in the opinion of many persons conversant with the circumstances, the unfortunate young man who was shot, was not the chief culprit, but that there were others engaged in aiding and inciting the fracas that are far more culpable than he.

This sad tragedy ought to be a warning to all whom it may concern, that it is best and safest to respect the rights of all men, and extend to them the privileges which are claimed for ourselves.

MEETING OF THE ENROLLED MEN OF THE 4TH WARD.

At a meeting of the enrolled men of the 4th Ward, Thursday evening the 19th inst., a call was made for subscriptions of \$25 from each enrolled man in the Ward to clear the Ward from the draft ordered February 15th, and it was resolved that if this call shall not be responded to with an amount sufficient to clear the Ward, the funds subscribed shall be divided pro rata among such of the subscribers as shall be drafted.

E. S. Barrows was appointed Treasurer, and the books of the association can be found at his store where subscriptions can be made until and including Thursday the 26th inst., after which time the books will be closed and no more names received.

The members of the association will be protected to the full amount of the funds raised, but no others will receive any benefit therefrom. Those who subscribed at the meeting above mentioned and who have not paid in their \$25 to the Treasurer, will please do so before Thursday next, or their names will be stricken from the roll.

There are 208 enrolled men in the Ward, and if they all respond to this call, the Ward can be saved from a draft.

By order of Committee.

P. S. An adjourned meeting will be held on Monday evening the 23d inst., at the 4th Ward School House.

Every one subject to the draft in the Ward is expected to be present at 7 o'clock p. m.

CONGRESS IS DISSENTED BECAUSE OF THE FAILURE OF THE SECRETARY OF WAR TO FURNISH INFORMATION CALLED FOR BY THE SENATE AND HOUSE.

His annual report has not yet been made.

It is stated that the Bankrupt law will pass the Senate next week.

DR. PRICE'S LETTER NO. 2 ON CONSUMPTION.

Consumption can be Cured.

We make this declaration boldly and fearlessly regardless of what may be said to the contrary by those who contend that this disease is beyond the power of any treatment or medicine ever to effect a cure. We do not pretend that all stages are curable, but when the disease is taken to season (before the organs are disorganized) whether hereditary, transmitted or acquired, by the system treatment we adopt, a cure can be effected. We prove the truth of our assertions by practical illustrations drawn from our extensive and extensive examination of the lungs and their cause of disease, by exhibition of cases of the most aggravated nature, cured by our mode of treatment—cases that had been given up by physicians as past all hope of recovery, many of which are now living with but one lung, in confirmation of our declaration.

My experience has proved that Pulmonary Consumption is produced in a great many instances by a primary affection of the Liver, and, generally speaking, one of the principal causes for its frequent prevalence, in this climate. Nine persons out of every ten in this western country suffer more or less from a deranged state of the Liver (arising from sudden changes, malarial influences, &c.) which in its early stages does not interfere with their daily pursuits, therefore allowed to go on from year to year and convey the disease direct to the lungs.

The patient under these circumstances of those who suffer from an affection of the Liver resorting to proper treatment for relief, may as well as understand that a primary affection of the Liver, is invariably the exclusive cause of pulmonary consumption. Many other causes may exist favoring such results, as hereditary disposition, indigestion, narrow chest, asthma, catarrh, chronic affections, and the result of acute diseases as fevers, pleurisy, inflammation, injuries to the chest, &c. The direct action of diseases upon the lungs, in ordinary cases, in the first instance is delirium. The patient soon loses appetite and the blood has left the surface of the body, and the powers of the heart become diminished, and the tendency of throwing the blood to the surface except when the heart becomes so completely engorged as to produce reaction, as witnessed in hectic fever. The heart beats rapidly, pulsations of ten high, it appears like a struggling to keep alive the circulation. No true volume of blood flows to the organs or the lungs. Under these circumstances it is impossible that the blood should become oxygenated, hence its depraved character is conveyed to the lungs, becoming less able to sustain other than the most delicate and glandular systems. The ulcer upon the lungs being constantly fed by this depraved blood decomposition progresses rapidly, discharges of pus continue to increase, the lungs to waste away until they can no longer perform their office, and death closes the scene.

The blood as shown in our last letter, is drawn from the lungs to the lungs at every pulsation, being again returned to the lungs to be re-oxygenated. If the lungs are weak, they are unable to re-oxygenate and consequently fail to force the blood from the heart to the heart as fast as the heart throws it to the lungs; hence the arteries, veins, and capillaries become filled and extended with blood; in consequence of which the lungs become a solid mass and there is not sufficient room for the blood to expand, hence shortness of breath or difficulty in breathing.

As the lungs are thus filled with blood, some slight exertion, such as coughing, some of their small vessels become ruptured and the blood is discharged from the mouth, called "bleeding of the lungs." These discharges are discolored, their whole texture is weak, and in this way the injury to be created by inhaling them, cannot be evident to all. By the use of the tube the lungs become highly inflated with air, and their cavities widely distended. The distention and consequent compression by their mucous tissues and membranes, force the blood from them back again to the heart, by which means the lungs are relieved, and should the lungs have sufficient strength to stand the violent action of the inhaling tube they may be made to feed themselves. But the portion of the blood which has been forced to the surface of the lungs, the blood vessels may be ruptured, and serious mischief follow.

Various gases, vapors, etc., have from time immemorial been inhaled with but a trifling benefit. The principles and practice we adopt for the cure of Pulmonary Consumption are in accordance with the views above set forth. It requires that the blood charging the lungs should be induced to circulate in the natural channels, upon the surface of the lungs, free from constriction, the hands and feet be established, a determination from the lungs into the system must be brought about, not only for a short time, but for some length of time, and until you can by the use of internal medicines render the blood healthy, and allow the lungs to recover sufficient strength to enable them to perform their office. It is the weakness of the lungs which produces the difficulty and this cannot be overcome whilst the accumulation of blood in the lungs are constantly exhaling their blood and sending them still weaker. They must be relieved from this accumulation or Consumption cannot be cured.

Any induration to the lungs must necessarily increase diseased action, it is sent to the lungs, not from the lungs into the system, that is required; it is absorption from the lungs can be accomplished, which is the result that must follow. Will not the lungs become less and less inflamed, and breathing thereby be facilitated? Will not the lungs become less and less inflamed, and breathing thereby be facilitated? Will not the lungs become less and less inflamed, and breathing thereby be facilitated?

We employ means that induce the blood from the lungs and internal organs to the surface of the body and keep it circulating there by which means the patient can breathe more freely, expectoration thickens and becomes less, irritation lessened, cough diminished, and the same time we are purifying the blood, and eventually producing a cure; such is our mode of treatment in Pulmonary Consumption, the success of which we fear not to compare with the most successful and illustrious of our day.

Patients should not hurry trusting to an uncertainly small strength is exhausted—the disease so firmly rooted in an earlier period would have been cured by the use of our system.

I shall be for consultation upon chronic diseases on Saturday, the 4th and 5th of February, Office at the Hyatt House.

DR. T. CLARENCE PRICE.

A LETTER FROM DEANFORT, S. C., dated Jan. 8, says: "The Seventeenth Corps (Gen. Blair) has just arrived, having been nearly the whole week in disembarking, and are now camped about two miles from town. The town is full of soldiers and contractors, who came with them. There are also hundreds of mules, horses, army wagons, great piles of forage, hard bread, hospital stores, &c. The men are nearly all the worse for wear, and will doubtless be relieved immediately. They have unbounded confidence in 'Billy Shaw,' as they call him, say he has never been whipped, and never can be. The army is anxious to be marching again. They say they have never been in camp more than fifteen days at a time and they seem to be afraid of contracting some of the habits of this department, such as profligate and garrison duty."

The Tennessee State Convention passed, by nearly a unanimous vote, a resolution that no person should be considered as qualified to vote until he should take a stringent oath declaring himself unreservedly in favor of the Union and all laws and proclamations issued by President Lincoln or Congress since the war began.

By the decease of Bishop Brownwell, of Connecticut, Bishop Hopkins, of Vermont, the defender of slavery and the sympathizer with the rebellion, becomes the presiding officer of the House of Bishops. If he were presiding Bishop in the Confederacy it would be all in keeping.

A MATRIMONIAL "THEY SAY."

Gossip about Chicago and South Bend, Ind., have it that a matrimonial alliance is in progress between Mrs. Douglas and Speaker Colfax.

—Cleveland Herald.

Reduction of Quotas.

The following copy of telegraph from Gen. Fry, explaining Circular No. 1, in regard to excesses on former calls being credited on this, has been received at the Executive office:

WASHINGTON, Jan. 14, 1883.

1. Col. Chas. S. Lovell.—Circular No. one (1) eighteen hundred and sixty-five (1865) was made to prevent the reduction of the quotas after it had been determined, by claims for credit for men not raised. The rule is to apply the credit to the call that produced them.

If the quota under the call for five hundred thousand (500,000) is more than filled, the excess in years of service is credited forward and credited on the call for three hundred thousand (300,000) and the quotas reduced accordingly before they are assigned, this is done in assigning quotas to districts, and the same rule is applied to sub-districts, and you will see that your Provost Marshals, if they do not already so understand it, hence the circular announces that the "quotas assigned are not to be reduced except &c." The credits are to be reduced except &c.

The credits are to be reduced except &c. The credits are to be reduced except &c. The credits are to be reduced except &c.

Copy furnished for the information of His Excellency, James T. Lewis, Governor of Wisconsin. CHAS. S. LOVELL.

Lt. Col. 19th Inf. A. A. Prov. Mar. Gen. Wis.

To INDICATE the magnitude of the Petroleum interests of this country, it may be stated the product of its oil wells has amounted in value the last year to more than \$25,000,000, while that of the California mines for the year 1882, according to the San Francisco Mercantile Gazette, amounted to about \$44,000,000.

It is decided to hold the next Indiana State Fair at Fort Wayne, if sufficient guarantees be given that the grounds shall be fitted up free of expense to the Board, to include not less than twenty-five acres.

CITY NOTICES.

DONATION PARTY.—The friends of Rev. S. A. Potts are requested to meet at the house of J. G. Hancock, in the town of Janesville, on Wednesday afternoon and evening, February 8th, 1883. An Oyster Supper will be given. Jan 21st 1883.

GRAND SALE.—There will be a great sale of jewelry and silver ware at the store opposite the Myers House, East Milwaukee street, on Monday next. Choice of all is to be given for one dollar, and a present is given to every one. ded 5-47.

BADGER STATE GRAIN DRILL AND BROAD CAST SOWER, COMBINED.—The Badger State Grain Drill has now been made at Janesville for four years. It is now made with all the improvements which years of experience have suggested.

The Badger State for 1883 can be changed into a Broad Cast Sower and Cultivator in thirty minutes time.

It is now so arranged that by raising the teeth, the feed is shut off, and by letting the teeth down the feed is put on. Again, the Badger State is now and always has been the lightest draft of any drill in the market.

The Badger State is warranted to be as good a drill as any yet made. It is warranted to be as good a broad cast sower as any in market.

The Badger State will plant corn or beans in hills or in drills. It will sow grass seed, clover and flax at the same time that it is sowing other grain. It sows grass seed either behind or before the teeth.

The prices for the Badger State for 1883 will be—No. 9 tooth, \$85; 10 do., \$90; 11 do., \$95; 12 do., \$100. Five dollars added for Grass Seeder; \$2 added for Broad Cast Sower. Those wishing to buy a Drill or Broad Cast Sower, will please bear in mind that the Badger State is a good Drill, and also a good Broad Cast Sower, in addition to being a good Corn Planter.

The Badger State is the only combined Drill and Broad Cast Sower in the market. Please call and examine the Drill, and get a Circular. R. J. RICHARDSON, Manufacturer.

Janesville, Jan. 9, 1883. d2wmm2m.

US ALL sides we hear the merits of the Grover & Baker Sewing-Machine extolled. The ladies declare it the "very best," and prove it to us in so many undeniable facts that we are bound to confess our conviction of the truth of the declaration. What other machine will embroider so beautifully, braid so elegantly, hem so fearlessly, quilt so evenly, stitch so accurately, gather so regularly, operate so easily? None. We conscientiously affirm.
